**Subject:** Re: Edits to Chlorpyrifos comms package

I added some comments to the press release, roll-out plan, and internal Q's and A's. I'll take another look at 4pm.

Based on our meeting with Michal this morning, I started making edits to the press release and roll out. Michal also had comments on the Qs and As. I know she'd like to get this to the AO ASAP, hopefully today. Carissa is working with the team to address these comments from Michal but any help you could provide in getting eyes on these materials today would be appreciated. Links below in case you need them. Thanks.

**Subject:** MICHAL REVIEW: Chlorpyrifos comms package

Hi Michal – here are the draft comms we’ve been working on. The roll out and web in particular are still works in progress. Let me know if you can’t access these files. We also need to decide what, if anything, to do with the [Columbia data webpage](#) and the webpage with the [Letter in Support of September 2018 Department of Justice Action on Chlorpyrifos](#). I’m thinking we archive them, which means removing them from our live website and putting them on [archive.epa.gov](http://archive.epa.gov) so they are still publicly accessible.
